

# Occhio control scenarios – Mito & Mito linear

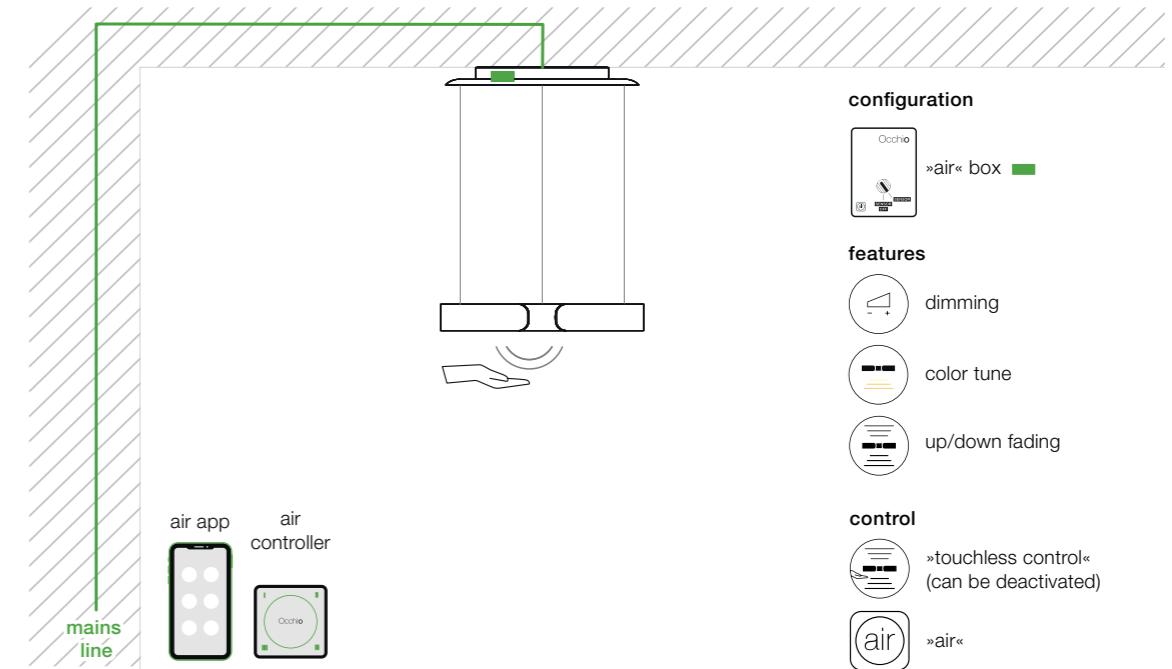

Occhio

## switch & dim

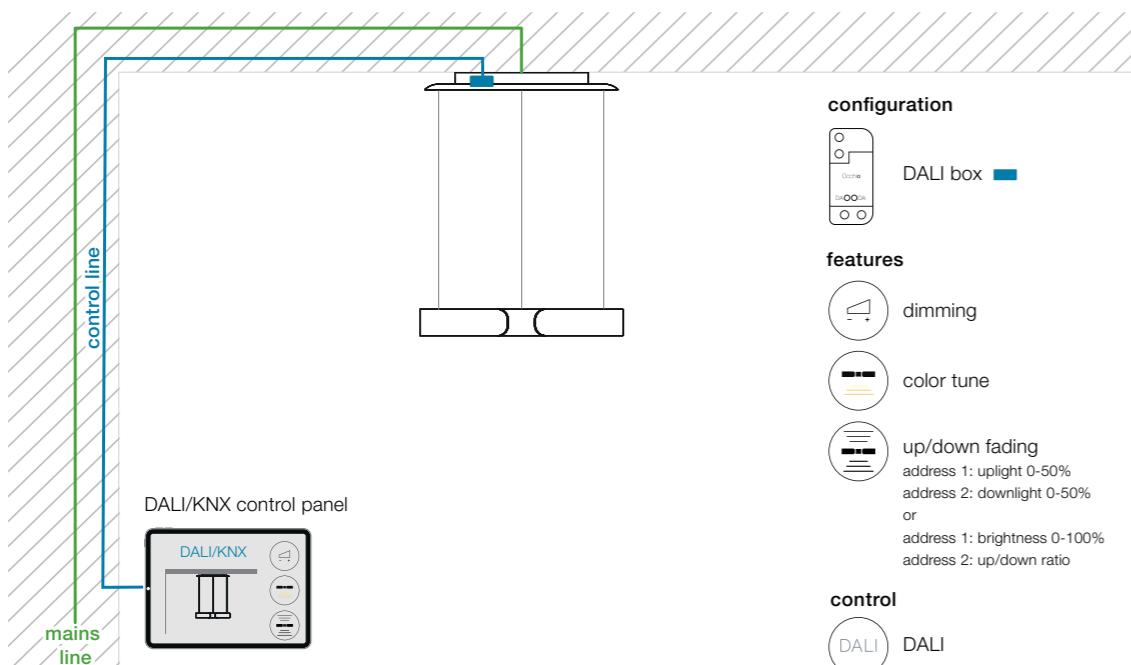

> list of compatible dimmers see [www.occhio.de/dim](http://www.occhio.de/dim)

## »touchless« & »air«

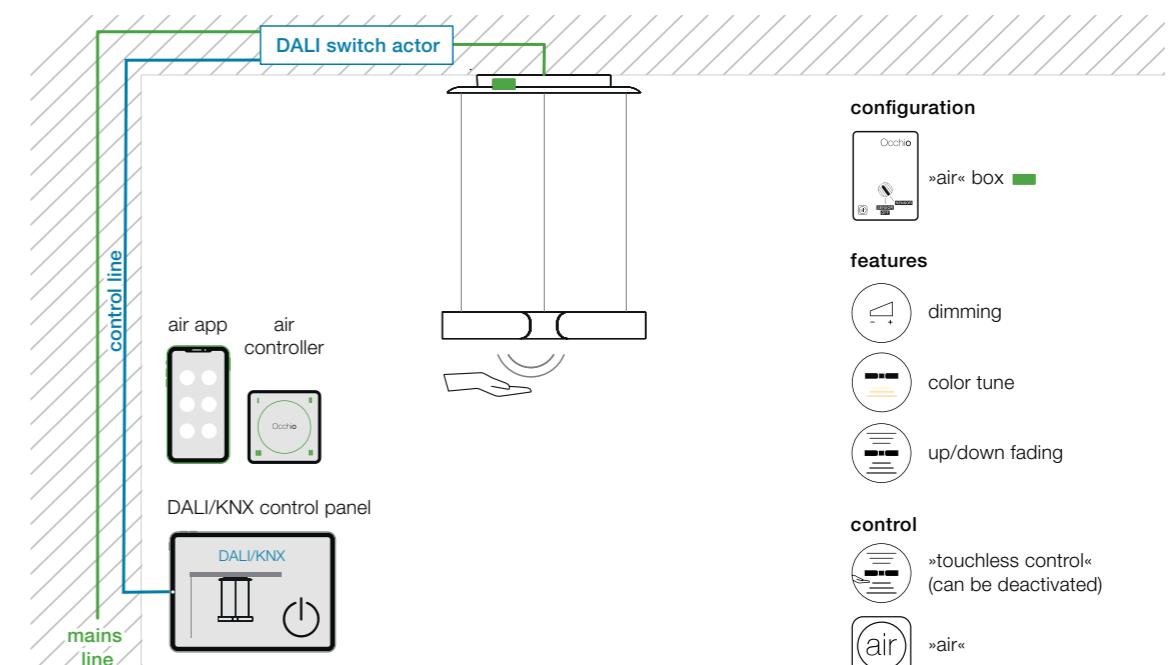

## smart home with DALI

> color tune requires DALI control via »DALI device type 8 (DT8)«  
 > up/down fading requires two DALI addresses  
 > mains line and DALI control line can be joined in a 5-pol. cable  
 > further information see [www.occhio.de/dali](http://www.occhio.de/dali)

## smart home with »touchless« & »air«

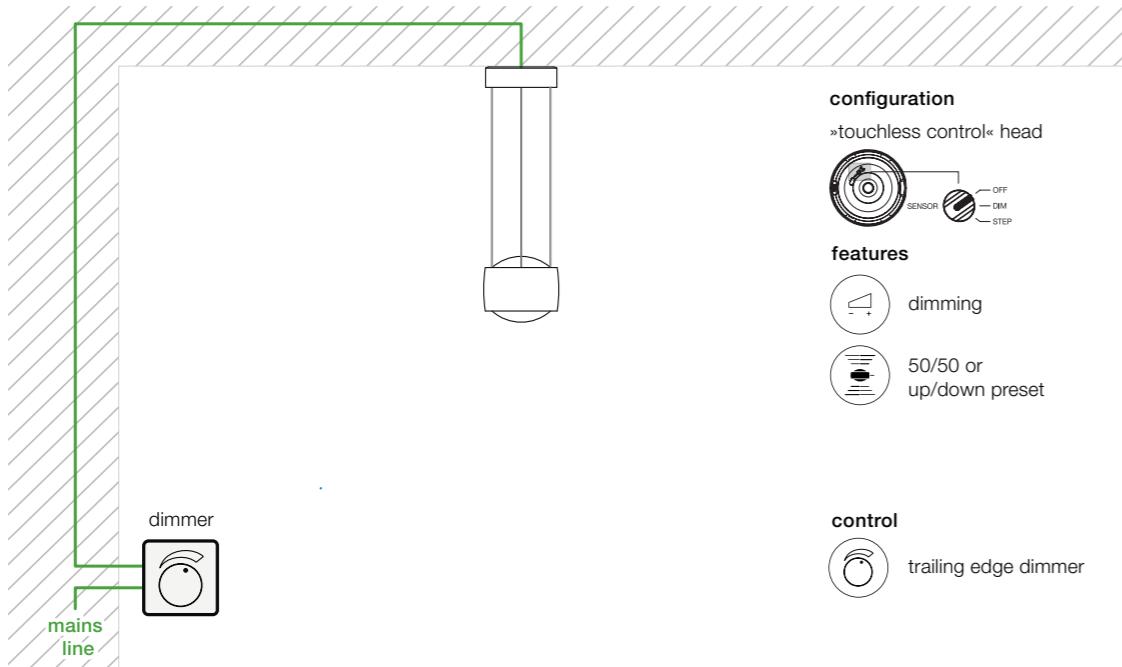

> switch power supply on/off with DALI  
 > control luminaire via »touchless control« and »air«  
 > mains line and DALI control line can be joined in a 5-pol. cable

# Occhio control scenarios – Sento & Sento sospeso

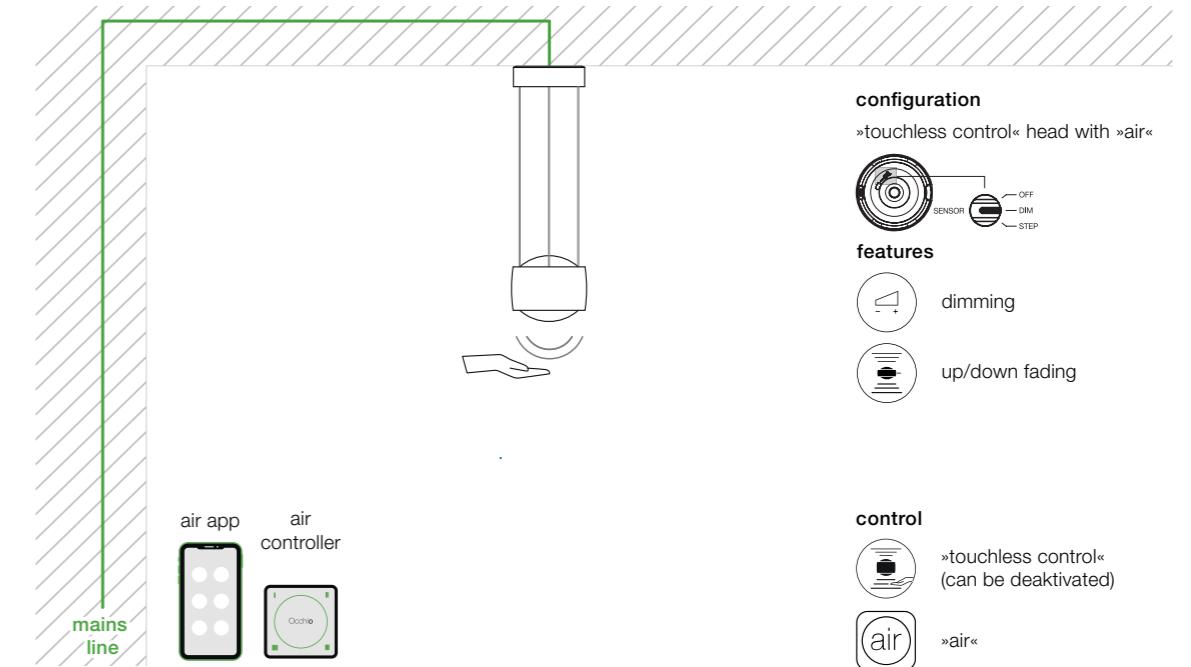

Occhio

## switch & dim

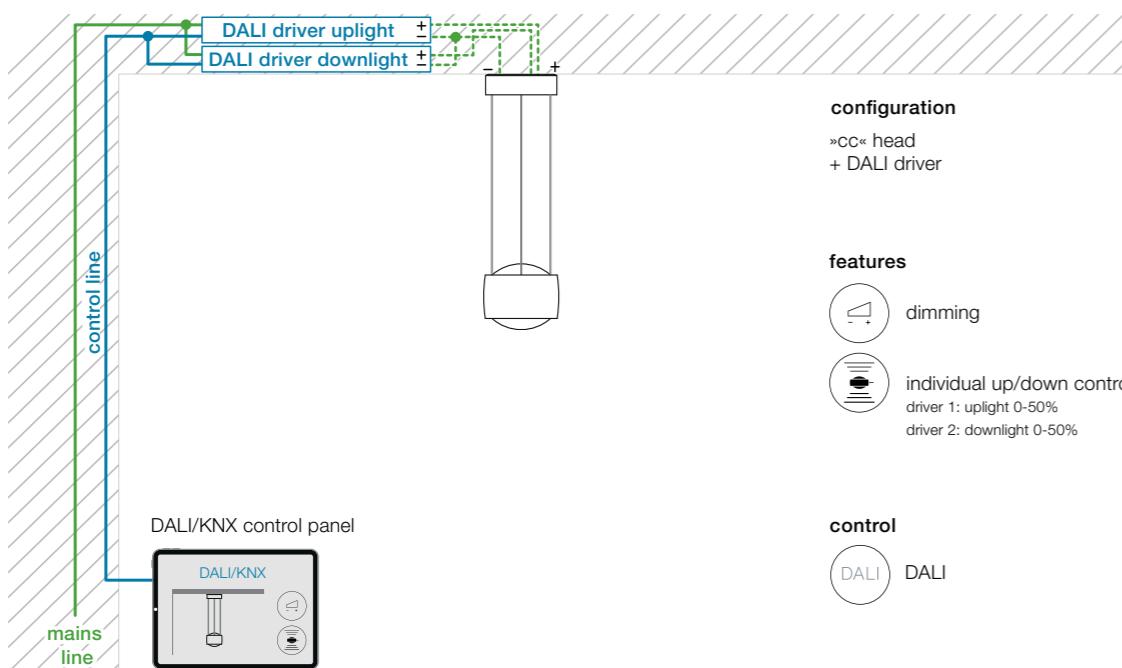

> list of compatible dimmers see [www.occhio.de/dim](http://www.occhio.de/dim)

## »touchless« & »air«

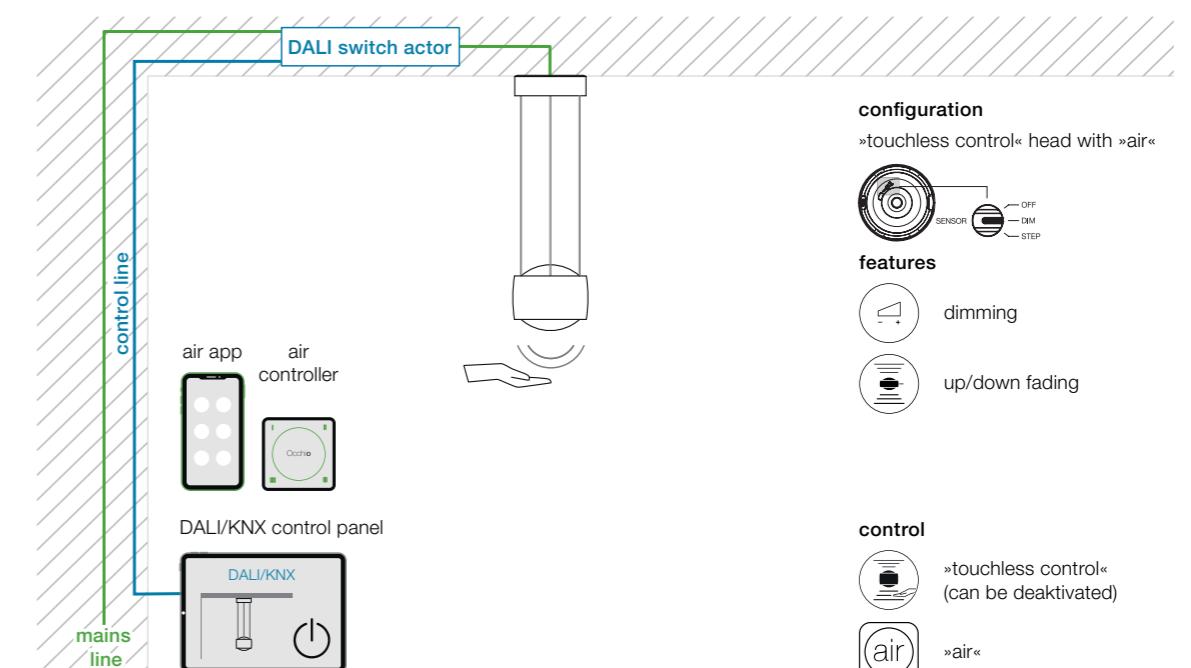

## smart home with DALI

> alternative: use one DALI driver with fixed up/down ratio of 50/50  
> mains line and DALI control line can be joined in a 5-pol. cable

## smart home with »touchless« & »air«

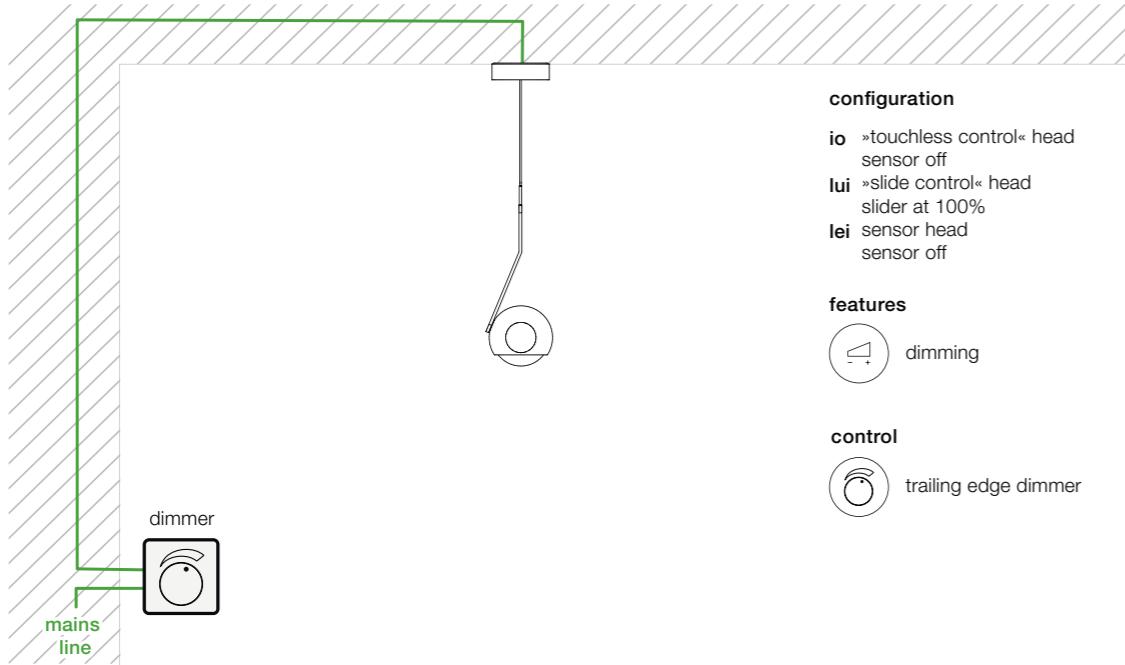

> switch power supply on/off with DALI  
> control luminaire via »touchless control« and »air«  
> mains line and DALI control line can be joined in a 5-pol. cable

# Occhio control scenarios – io/lui/lei 3d

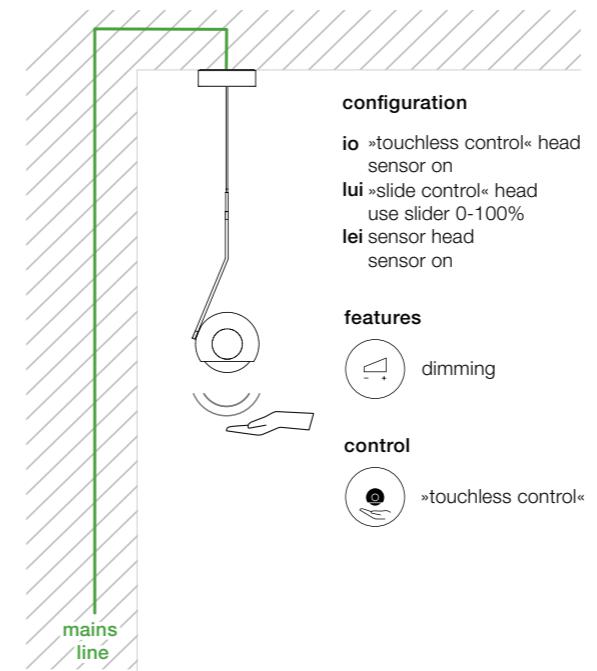

Occhio

## switch & dim

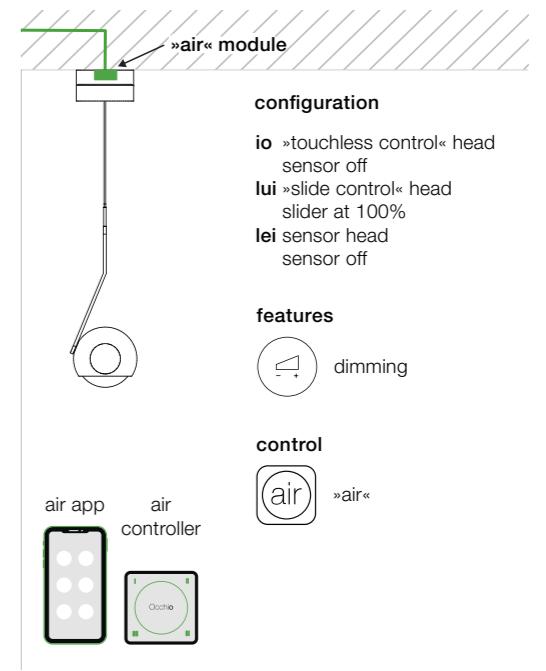

> list of compatible dimmers see [www.occhio.de/dim](http://www.occhio.de/dim)

## »touchless«

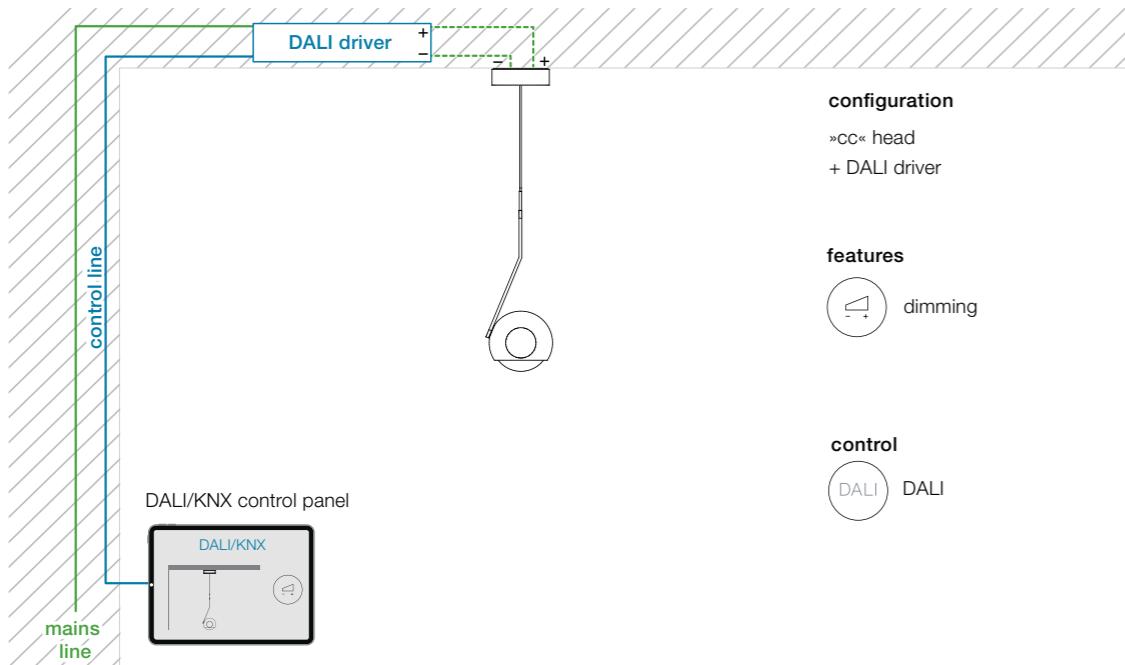

> »touchless« not to be combined with »air« module

## or »air«

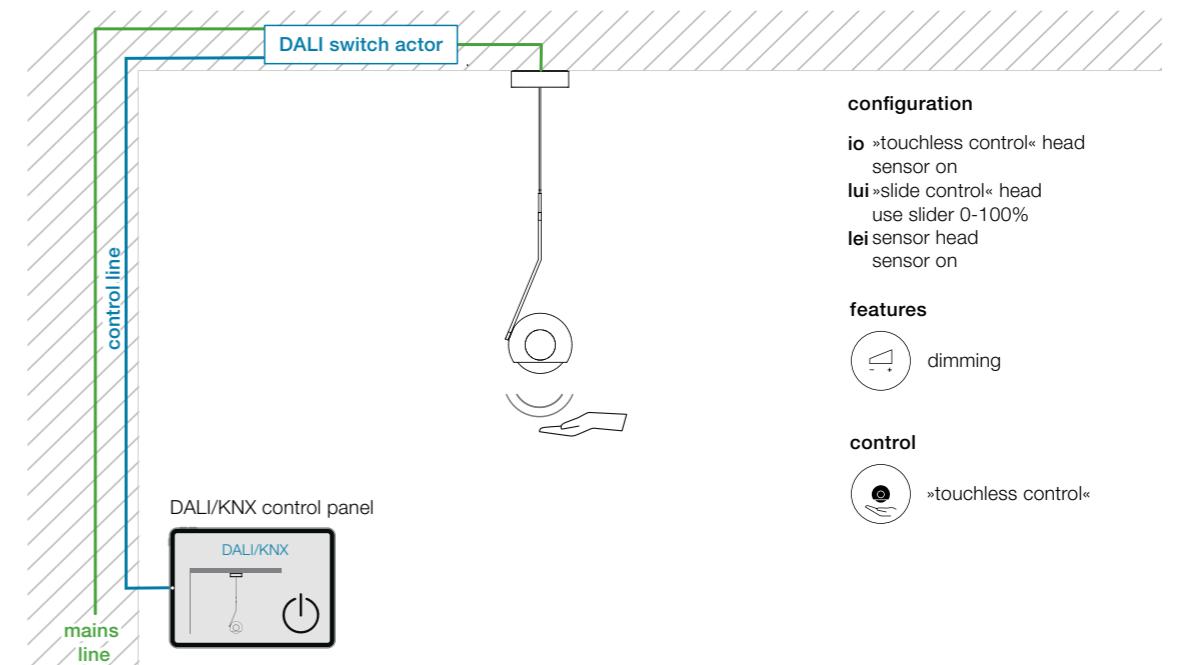

> depending on the mounting situation the use of an additional air adapter for the »air« module is required

## smart home with DALI

> mains line and DALI control line can be joined in a 5-pol. cable

## smart home with »touchless«

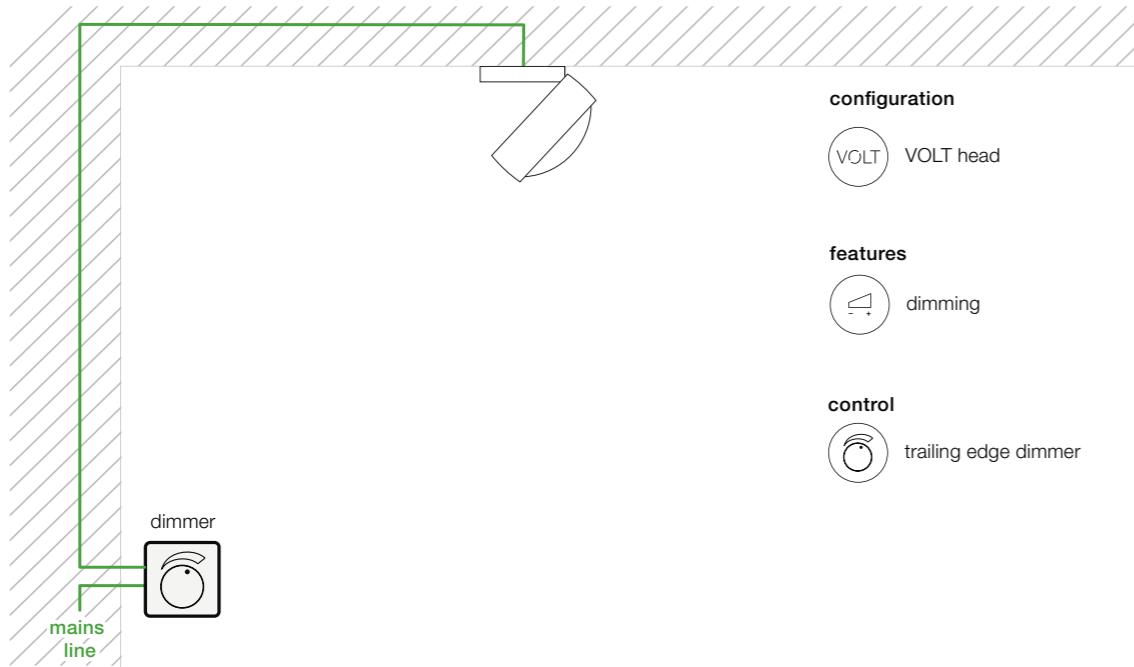

> switch power supply on/off with DALI  
 > control luminaire via »touchless control«  
 > same principle applicable for io/lui/lei 3d with »air« module (see »air« scenario)  
 > mains line and DALI control line can be joined in a 5-pol. cable

# Occhio control scenarios – Più, io/lui spotlights, Sito

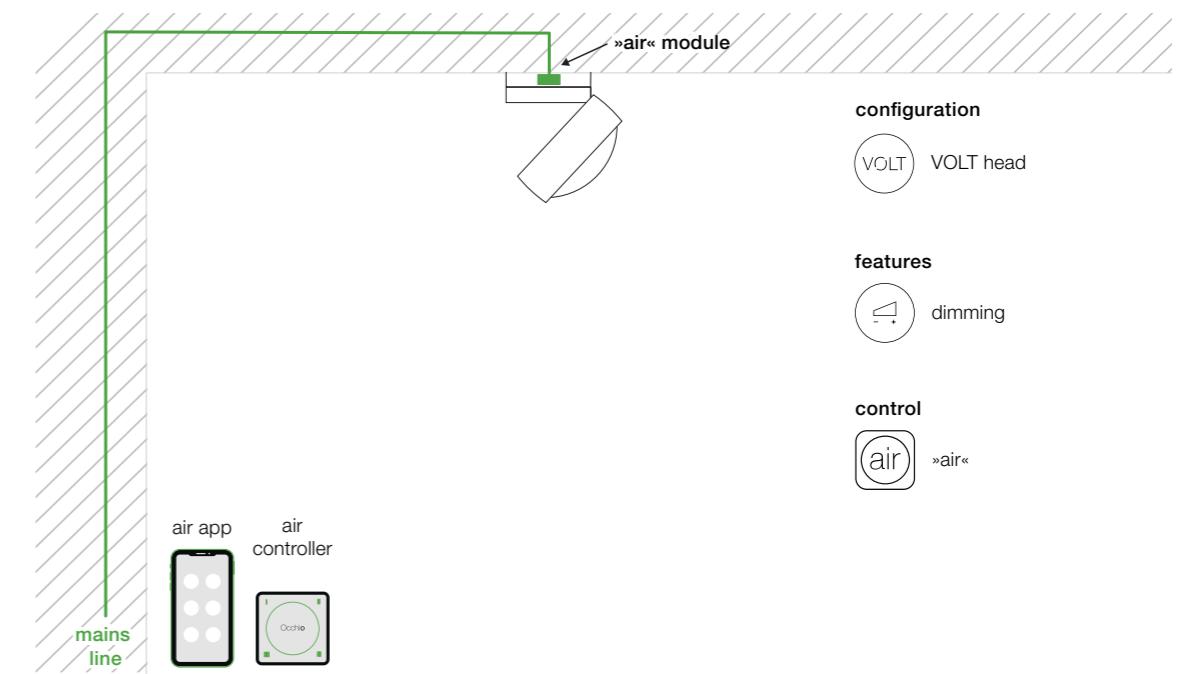

Occhio

## switch & dim

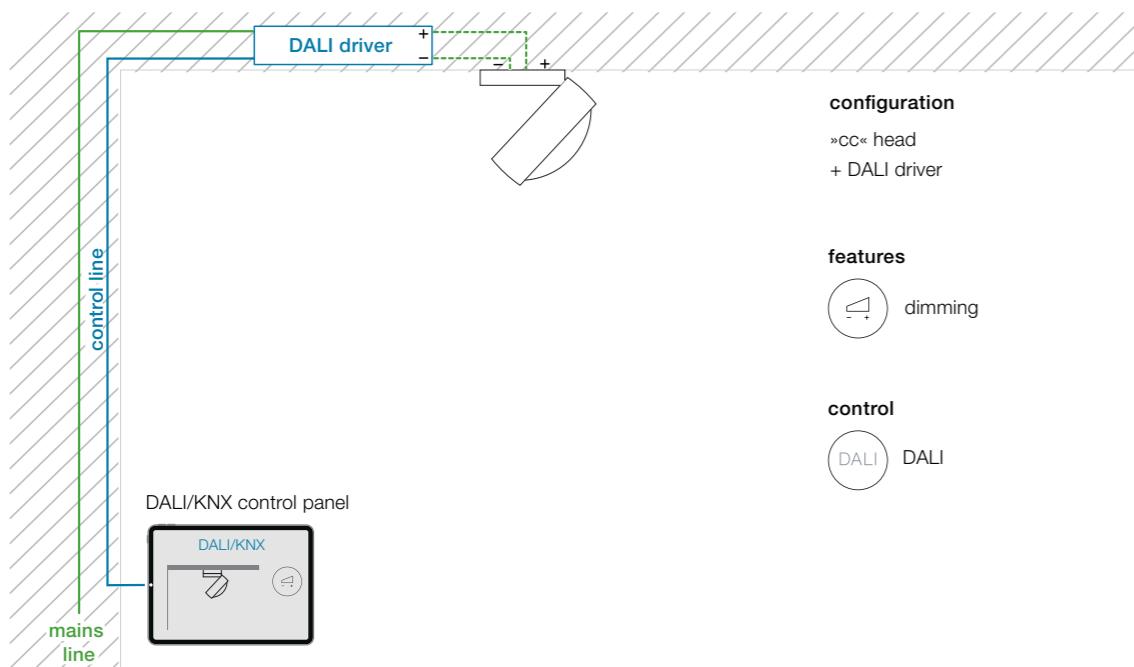

> list of compatible dimmers see [www.occhio.de/dim](http://www.occhio.de/dim)  
 > lui spotlights: set rotary switch to 100%

## »air«

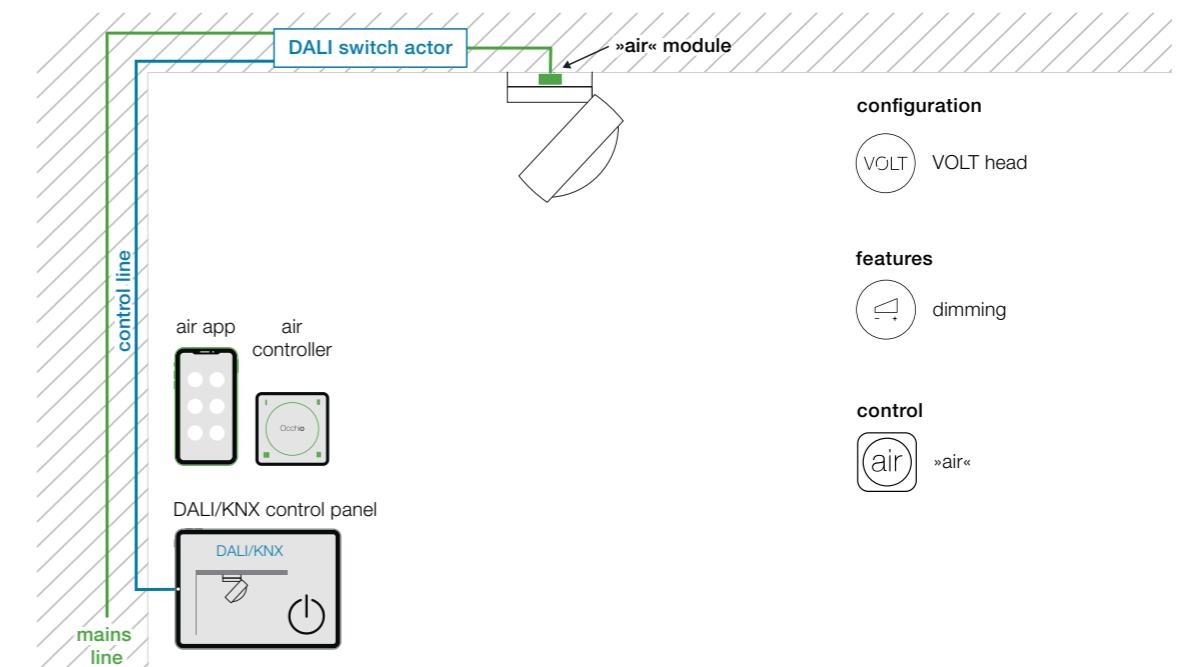

> depending on the mounting situation the use of an additional »air« adapter for the air module is required

## smart home with DALI

> for Sito use DALI/KNX actor, see also [www.occhio.de/dim](http://www.occhio.de/dim)  
 > mains line and DALI control line can be joined in a 5-pol. cable

## smart home with »air«

> switch power supply on/off with DALI  
 > control luminaire via »air«  
 > depending on the mounting situation the use of an additional air adapter for the »air« module is required  
 > mains line and DALI control line can be joined in a 5-pol. cable
